Item must be fully insured and trackable

I love giving great customer service and try to eliminate any problems by disclosing everything I know or don't know about any item I list. Ev ensure that it arrives to you the same as pictured and described in the listing. If ever there's an issue of any kind please give me an opportunity eBay, Paypal or leaving Feedback. If I sell something for PARTS NOT WORKING it means AS IS with no refunds or returns and I try to price instruments and I don't pretend to be an expert at any of them so you can never ask to many questions so please feel free to do so. This is what potential customer is very much appreciated

Overall the very old microscope was in good condition. The packaging was carefully done and safe for transport. A few parts were missing or damaged, which naturally occurs in many cases. The seller was carefully looking for the missing parts and gave a partial refund. Which was ok.
