I love giving great customer service and try to eliminate any problems by disclosing everything I know or don't know about any item I list. Every item will be professionally packaged to ensure that it arrives to you the same as pictured and described in the listing. If ever there's an issue of any kind please give me an opportunity to fix it with you before opening a case with eBay, Paypal or leaving Feedback. If I sell something for PARTS NOT WORKING it means AS IS with no refunds or returns and I try to price it fairly to reflect that. I sell a variety of lab instruments and I don't pretend to be an expert at any of them so you can never ask to many questions so please feel free to do so. This is what I do for a living so every customer or potential customer is very much appreciated
