Outstanding seller. As described, carefully packed, quickly shipped, and great communication. Thank you.

I've never seen a better and more secure packing job! Plus the condenser arrived extremely promptly. Great communications with the seller. Will be able to restore full functionality to the condenser and then it will be in 'new' condition with the very scarce pre-polarizer system. Highest recommendations - very responsive seller! Thank you so much!

Thanks, man. My refurbishments may not be world-renowned, but customers like you are definitely my target demographic. Your eagerness to communicate expectations in advance, make honest middle-ground deals, and formally discuss these items were highly appreciated.

Superb seller. I wish there was some finite quota of positive++ feedback I could leave, because this is the kind of seller that makes me stay on ebay. Great shipping time, recyclable packaging is really meaningful to me, and this seller cares about the industry/niche that they participate in. I will buy something else from them out of appreciation at some point.
