Item description from the seller

This is a nice Nikon 60x Oil PA DIC nosepiece prism. It is in excellent optical condition and ready to use. It contrasts as it should. Minor wear to the label and frame. I used this up until recently on my TE 300. I switched to the N1/N2 prism system and no longer need this. A 3D printed sleeve included.

This prism is in excellent condition and ready to use.
